On a new page after the claims, please add the below paragraph starting on line 1:

HYPOALLERGENIC VARIANTS OF THE *PARIETARIA JUDAICA* MAJOR ALLERGENS, USES THEREOF AND COMPOSITIONS COMPRISING THEM

ABSTRACT OF THE INVENTION

-- A multimer protein molecule comprising at least a first amino acid sequence having substantially the sequence of one of the *Parietaria judaica* major allergens and a second amino acid sequence having substantially the sequence of one of the *Parietaria judaica* major allergens Par j 1 or Par j 2, and a third sequence of one of the *Parietaria judaica* major allergens Par j 1 or Par j 2. The molecule is also mutated in the amino acid region corresponding to loop 1, so that is hypoallergenic. The molecule can be utilized for medical use as a hypoallergenic agent.--
